ABOUT US

At Axon Healthcare Systems, we are committed to pioneering advanced healthcare solutions that bridge innovation, science, and wellness. Our integrated product suite addresses neurological disorders, chronic metabolic conditions, and cellular health using world-class technologies. We serve healthcare providers, wellness centers, and individuals who demand the highest standards of care and performance.

Streamlined Neuromonitoring

We deliver advanced neurodiagnostic and monitoring tools enhanced by MCS innovations:

- EMG/NCS/EP systems
- Clinical & portable EEG (including NEUROVisor)
- Video EEG monitoring
- ICU neuro monitoring
- Evoked potentials & ERP (EP & ERP Set)
- QEEG & brain mapping
- Mobile brain stimulation (tES4me)
- Disposable EEG caps (DEC NET & pre-gelled)

Photobiomodulation Therapy

Science-backed light therapy for cellular health and cognitive function.

Product Highlights:

- Neuro Alpha/Gamma – Enhances brain performance and recovery
- Vielight X-Plus – Boosts immune function and systemic wellness
- Vielight Duo Systems – Combined neuro and systemic PBM solutions

- ✓ Non-invasive
- ✓ Clinically researched
- ✓ Safe and easy to use

Applications: Alzheimer's, concussion, mental clarity, stress recovery.

Continuous Glucose Monitoring (CGM)

Revolutionize your diabetes management.

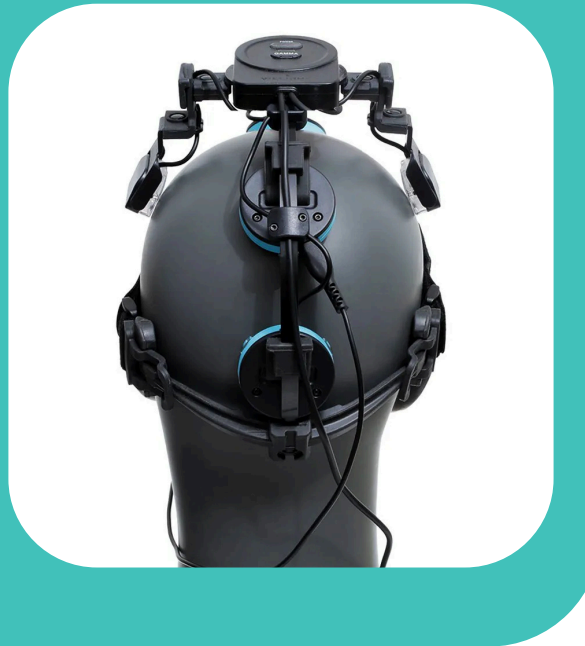

Key Benefits:

- Real-time glucose trends
- No finger-pricks
- Seamless mobile tracking
- Alerts for highs/lows
- Share data with clinicians

🎯 For diabetes patients, athletes, and health-conscious users.
